

Game Design Camp

Coding | Game Development | Design

LEARN THE ESSENTIAL ELEMENTS OF GAME DESIGN.

CREATE YOUR OWN GAME AND PUBLISH IT TO IPHONE, IPAD, ANDROID, WINDOWS, MAC OR FLASH!

Students learn all about the game development process through:

- ❖ Non Digital Prototyping
- ❖ The Five Elements of Game Design
- ❖ Computational Thinking Concepts and Approaches
- ❖ Coding Essentials

This camp goes beyond the technical aspects of making video games to explore how rules and game systems lead to an enjoyable and challenging player experience.

Students learn through deconstruction and creation of both non-digital and digital games on their way to conceiving of and making their very own game.

Monday, August 14th - Friday, August 18th
9:00am - 3:00pm

Intermediate Camp - Ages 10-13

Cost: \$285 per student

Bring your own lunch.
